

## Financial opportunities for you

Are you unsure if you need to reduce your super contributions from 1 July 2017?

Are you self-employed as well as work for an employer and want to maximise your super contributions?

Do you have a spouse who earns income of less than \$37,000?

Do you want to understand how your money is invested?

If your income is your biggest asset, do you want to know how to protect you and your family's wealth if you become sick or injured?

If you answered yes to any of those questions, then this seminar is for you!

*This session is suitable for anyone interested in taking control of their financial future by planning ahead and for investors who are unsure of their investments.*
